Authorization for this examiner's amendment was given in a telephone interview with Derek P. Martin, Reg. No. 36,595 on 3/21/2006.

The application has been amended as follows:

Claim 8, line 1:

A computer readable program product comprising:

(B) [computer-readable signal bearing] recordable media bearing the framework mechanism.

Claim 9 (Canceled)

Claim 10 (Canceled)

Allowable Subject Matter

4. Claims 1-8 & 11-23 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding independent claims 1, 8, and 17, Johnson and other cited prior arts, taken alone or in combination, fail to disclose:

“a user-extensible object oriented framework...including at least one core function that cannot be modified by a user and at least one extensible function defined by a user...”

in combination with

“an index processor that creates at least one word index corresponding to the plurality of documents and a query processor that receives a query and determines if any of the plurality of documents match the query by processing the query and comparing the processed query to the plurality of words in the at least one word index, thereby providing a query result.”

Thus all remaining dependent claims, claims 2-7, 11-16, and 18-23 are allowed.

Claims are to be renumbered in order.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee.

Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
